History

NEWARK was founded in 1666. It is located on the Passaic River and Newark Bay. It is about 8 miles from New York City and is the metropolis of New Jersey. It is an important manufacturing and distributing center with a great diversity of manufactures. Thirteen miles of waterfront. City developed, PORT OF NEWARK, provides deep water shipping to all parts of the world, also, ship-to-car and car-to-ship handling of merchandise. Going away with the necessity for lighterage. United States Trunk Highways adjoining Port greatly facilitate motor truck shipments of goods, air transportation of all forms is provided at Newark Metropolitan Airport. Unexcelled labor market. Lumber and building material center.

Newark ranks eighteenth in population. It has unsurpassed educational facilities, schools, academies and colleges, and is the shopping center for northern New Jersey. The Newark Chamber of Commerce is one of the best equipped service institutions in the United States and with its varied divisions stands ready to furnish descriptive data and facts to those interested in the tremendous business possibilities of this community.

Financial and insurance center. Home offices of ten large Life, Fire and Casualty Companies with aggregate assets of over five billion dollars, and over fourteen thousand home office employees. There are 84 Savings and Loan Associations with total assets of \$57,308,343.

Newark's large metropolitan department and other specialty stores serve the general high-grade retail demands. Its daily and Sunday newspapers consisting of the "Newark Evening News," "The Newark Sunday Call," and "The Newark Star-Leader" are widely known. Newark is the home of Radio Broadcasting stations WHBI, WPAT and WAAT.

"What You Should Know About Your City"

The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government, and her needs. This knowledge develops, first, an intelligent interest. Then a sympathy, then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful, and finally a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

The illustration shows a large, craggy mountain peak. In the center of the mountain, a large book titled "CITY DIRECTORY" is prominently displayed. The book cover also features the text "THE STANDARD CITY BOOK" and "1942 EDITION". The mountain is set against a background of stylized clouds. In the foreground, there is a body of water with a small boat and some reeds. The entire scene is enclosed in a rectangular frame. On either side of the frame, outside the main illustration, is a small icon of an open book.

"Among the newspapers in the United States which are conceded in their own profession and by the public that reads them to be outstanding in courage, honesty and public service The Newark Evening News holds a very high place."

Arthur Krock
Noted Columnist

A FEW *facts*

ABOUT AMERICA'S LEADING SIX-DAY NEWSPAPER

For twenty one years — as far as the records go! — the Newark Evening News has published more week-day advertising linage than ANY New York newspaper. Newark News circulation for the first 10 months of 1942 averaged 206,900 net paid daily — largest circulation in its 58 year history.

The front rank position of the Newark Evening News among the newspapers of America in advertising linage carried is a testimonial of the high regard it enjoys from national and local advertisers. In 1941, only two evening newspapers in the United States carried more than the Newark News total of 2,102,334 lines of National Advertising. In the same year

the News published 8,410,296 lines of retail advertising, ranking 12th among the country's evening newspapers, according to Media Records, Inc.

The Newark News is one of America's greatest Want Ad media — last year it carried 3,846,647 lines of Want Ad advertising — more than any other evening paper in America.

To more thoroughly present news of the individual communities, as well as the latest events in the State, Nation and the world-at-large, the Newark News publishes six complete editions daily: STATE, SUBURBAN, CITY-COUNTY, WALL STREET, SPORTS, SPORTS FINAL.

ARE THEY USED?

Just six Price & Lee directories in customer's use for one year picked at random when the new one was issued.

What a tribute to the knowledge of the man who insists on complete representation throughout his city directory.

Your city directory is where advertising becomes a part of durability and use.

Affiliated Advertising Federation of America

Association of North American Directory Publishers

General Office, 354-360 4th Ave., New York City

OFFICERS

President—R. L. P. Smith, Detroit, Mich.
1st Vice-President—Vacant
2nd Vice-President—Byron W. Bowman, Akron, Ohio
3rd Vice-President—R. Walter Lovell, Montreal, Quebec
4th Vice-President—H. Clifford Manning, Springfield, Mass.
Secretary-Treasurer—E. J. Loranger, 354 4th Ave.,
New York, N. Y.

BOARD OF TRUSTEES

J. Martin Gardner, Toronto.	D. W. Bowman, Akron.
H. A. Manning, Springfield.	Ralph L. Polk, Detroit.
R. W. Lovell, Montreal.	L. S. Carson, Louisville.
Walter H. Lee, New Haven.	R. L. P. Smith, Detroit.
Byron W. Bowman, Akron.	Peter W. Hart, New Haven.
Rogers Carmichael, Pittsburgh.	

THE OBJECTS OF THE ASSOCIATION ARE AS FOLLOWS:

FIRST. To improve the Directory business by the interchange of ideas, and by the exchange of competent employees.

SECOND. To protect the public against fraudulent advertising schemes operated under the name of directories, and to drive the promoters of such out of the business.

THIRD. To provide permanent and continuous employment for honest and faithful directory canvassers.

FOURTH. For the mutual advancement of the established and prospective interests of all who may become members of the association.

\$100 REWARD

The Association of North American Directory Publishers will pay the above reward for the arrest and conviction of any one soliciting or collecting money on Fraudulent directories, provided the conviction results in imprisonment of not less than six months. In case of arrest immediately telegraph E. J. Loranger, 354 4th Ave., New York City.

ALPHABETICAL DIRECTORY

JOHN A. LINNETT M.A. REALTOR

Real Estate Appraiser
 Tax Counselor

1. The first step in the appraisal process is to identify the property to be appraised. This involves obtaining a legal description of the property, including the location, size, and boundaries. The appraiser must also determine the purpose of the appraisal, such as for a mortgage loan, estate planning, or a sale.

2. The second step is to gather data about the property and the market. This includes researching recent sales of similar properties, current market conditions, and any unique features of the property. The appraiser must also consider the condition of the property and any improvements that have been made.

3. The third step is to select the appropriate valuation method. There are three main methods: the cost approach, the sales comparison approach, and the income approach. The cost approach is used for new or recently constructed properties. The sales comparison approach is used for properties that have recently sold. The income approach is used for properties that generate income, such as rental properties.

4. The fourth step is to apply the selected method to the property. This involves calculating the value of the property based on the data gathered in the previous steps. The appraiser must also consider any adjustments that may be necessary, such as for differences in property size or condition.

5. The fifth step is to prepare the appraisal report. This report should include a detailed description of the property, the data gathered, the valuation method used, and the final value of the property. The appraiser must also include a statement of the assumptions and limitations of the appraisal.

6. The final step is to present the appraisal report to the client. The appraiser should explain the findings of the appraisal and answer any questions the client may have. The client should then use the appraisal report for its intended purpose.

NUMERICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to street descriptions and their location on city map

Information—as to the location by number of intersecting streets and their relation to other numbers.

Information—as to the name of every householder at any given street number.

Information as to the name of every place of business and its nature at any given street number

Information as to the location of telephones (Δ) by street number.

Information—as to resident home owners.¹⁰

Information —as to the character of any street or district.

Information as to the number of families living at any number and who they are.

Information—as to the correct spelling of names when addresses are known.

Information—as to sections capable of producing the greatest amount of business by personal solicitation or "direct mail".

—Finally—

It takes the "Who is it?" out of your neighborhood and adds another link to your chain of friendliness

THE PRICE & LEE CO.

NEWARK NUMERICAL DIRECTORY
EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of households, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)
 An abbreviation "r" between the street number and the name signifies "rear"
 The word "vacant" after a number signifies that the house, office or store at that number was vacant when canvass was made.
 * indicates telephone at this number

The symbol $\otimes$ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can bear is assumed, nor can the publishers furnish further information than that shown.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud. The text outlines the various methods used to collect and analyze data, including the use of statistical models and computerized databases. It also discusses the challenges associated with data collection and analysis, such as the need for standardized procedures and the potential for bias in the data.

2. The second part of the document focuses on the role of the auditor in the financial system. It describes the various responsibilities of the auditor, including the need to maintain independence and objectivity, and the importance of following established auditing standards. The text also discusses the various techniques used by auditors to detect and prevent fraud, such as the use of sampling and the analysis of trends. It emphasizes that the auditor's role is to provide an independent and objective assessment of the financial statements, and that this assessment is essential for the confidence of investors and other stakeholders.

3. The third part of the document discusses the importance of transparency and accountability in the financial system. It emphasizes that transparency is essential for the confidence of investors and other stakeholders, and that accountability is essential for the integrity of the financial system. The text outlines the various measures that can be taken to promote transparency and accountability, such as the use of public reporting and the establishment of independent oversight bodies. It also discusses the challenges associated with promoting transparency and accountability, such as the need for standardized procedures and the potential for bias in the data.

4. The fourth part of the document discusses the importance of the financial system in the economy. It describes the various functions of the financial system, including the provision of capital and the facilitation of trade. The text also discusses the challenges associated with the financial system, such as the need for stability and the potential for crisis. It emphasizes that the financial system is essential for the growth and development of the economy, and that it is the responsibility of all stakeholders to ensure its integrity and stability.

5. The fifth part of the document discusses the importance of the financial system in the context of the global economy. It describes the various challenges associated with the global financial system, such as the need for international cooperation and the potential for global crisis. The text also discusses the various measures that can be taken to promote the stability and integrity of the global financial system, such as the use of international standards and the establishment of international oversight bodies. It emphasizes that the global financial system is essential for the growth and development of the world economy, and that it is the responsibility of all stakeholders to ensure its integrity and stability.

The City Directory

Does not compete with any other advertising medium, but supplements and complements all other forms of mercantile publicity.

Intelligent Directory Advertising describes desirable merchandise attractively and directs you to the door of the man who has it for sale.

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

1,067,500
